

# INDO GLOBAL COLLEGE OF PHARMACY

NEW CHANDIGARH

Imparting Skills, Building Leaders

## About Institute

Indo Global College of Pharmacy, located in Abhipur, New Chandigarh is one of the leading institution offering a four-year Bachelor of Pharmacy (B.Pharmacy) program. The course is approved by the Pharmacy Council of India (PCI) & Government of Punjab and affiliated with IKG Punjab Technical University, Jalandhar.

The college is nestled in a peaceful, lush green campus at the foothills of the Shivalik Ranges, just 18 km from Chandigarh, providing an ideal atmosphere for learning and personal development. Our campus features state-of-the-art infrastructure, including digital classrooms, Well-equipped laboratories, Model pharmacy, Pharmaceutical museum, Well-stocked library, dedicated seminar and group discussion rooms to promote interactive learning. We offer separate hostel facilities for boys and girls, ensuring a safe and comfortable stay for students. Additionally, the college provides its own transportation facility for convenient commuting.

Our dedicated team of highly qualified and experienced faculty and staff is committed to delivering quality education and hands-on training in pharmaceutical sciences.

## Vision and Mission Statement

Indo Global College of Pharmacy aims to provide high-quality, affordable education in the pharmaceutical sciences. Our goal is to create a strong foundation in theory while giving maximum exposure to hands-on learning and real-life applications.

We aim to develop skilled, confident, and responsible pharmacy professionals who are ready to meet the needs of the healthcare industry and society. Through strong industry connections, research opportunities and focus on innovation, we encourage students to think creatively and act with purpose.

We also support writing, publishing and entrepreneurship to help students grow beyond the classroom. By promoting safe and effective use of medicines, community health and patient care, we strive to build a healthier society and a brighter future.

# Introduction to B. Pharmacy (Bachelor of Pharmacy) Course

The Bachelor of Pharmacy (B. Pharmacy) is a four-year undergraduate program designed for students passionate about the field of medicine, healthcare, and pharmaceuticals. It equips students with the knowledge and skills required to develop, formulate, manufacture, and distribute medicines while ensuring their safety and effectiveness.

This course bridges the gap between medicine and healthcare by focusing on:

- 1. Pharmaceutical Sciences** – Understanding drug composition, interactions, and therapeutic applications.
- 2. Pharmacology** – Studying the effects of drugs on the human body and their mechanisms.
- 3. Pharmaceutics** – Exploring drug formulation, production, and quality control.
- 4. Pharmaceutical Chemistry** – Learning the chemical properties of medicinal compounds.
- 5. Hospital & Clinical Pharmacy** – Training in patient care and medication management in healthcare settings.

The curriculum combines theoretical knowledge with practical training in laboratories, hospitals, and industries, ensuring students gain hands-on experience in pharmacy practice.

Graduates of the B. Pharmacy program are prepared for diverse career opportunities, including roles as pharmacists, quality analysts, regulatory officers, researchers, and even entrepreneurship in the pharmaceutical sector. Pharmacists are not only responsible for drug research, development, preparation, and dispensing but also the examination of their effectiveness and side effects. This course is a stepping stone for those aspiring to advance in the healthcare and pharmaceutical industry, contributing to public health and the development of new medicines.

Duration of the course:  
**4 years (8 semesters)**

## Eligibility:

Passing of 10+2 examination with Physics, Chemistry Mathematics / Biology conducted by a recognized Board / University / Council as equivalent to 10+2 examination by the Association of Indian Universities with English as one of the subject and Physics, Chemistry Mathematics /Biology as optional subjects individually.
